<b>Please Provide any other suggestions, comments or any other topics you wish to suggest for a future talk/ workshop?</b>	
Prototyping demonstration	
How to build a business plan, what things to consider while making business plan.	
For students like us who have little idea of entrepreneurship, Can you please add guide about taking a laboratory scale product to next level for prototyping and commercialization.	
As for a workshop I'll really be open to workshops in probiotic formulations or microbiological techniques	
Regarding the interview preparation	
I am more interested into cell biology or related subjects that will provide us with insights related to it and with the lab where we can carry out our work with our topic
