

NSF Innovation Corps

The ICORPS curriculum is not about how to write a research paper. Assistance in ICORPS grants. The result is not a publication or a presentation of slides. Instead, ICORPS participants receive hands-on experience in customer discovery—a key step in the entrepreneurial process that involves talking to potential customers, partners and other industry stakeholders. The exercise leads to a product and/or service.

<https://beta.nsf.gov/funding/initiatives/icorps>

A customer discovery program: You form a team (typically three members, one technical lead, one business lead and one outside expert) and you talk with customers, potential partners, any other stakeholder
